

# STS FILTER-MATE FLOW INDICATOR

**Specified  
Technical  
Sales Ltd.**

Specified Technical Sales Ltd  
Offers 3 sizes of the popular  
STS FILTER-MATE flow indicator.  
Both the ¾" NPT and 1" NPT  
feature a 304 stainless steel body  
with stainless and nylon internals.  
The fused class cap is constructed of  
nickel plated steel. The 2" NPT  
is manufactured with a bronze body.  
Flow rates are 4-8gpm, 7-11 gpm and  
25-60 gpm. These flow indicators are  
ideally suited for monitoring flows  
through filter cartridges used in HVAC  
hydronic systems up to 150 psi and 212 F.
